CHANGES TO THE NURSERY MILK SCHEME

On 23 May 2022 we advised you that changes to the Nursery Milk Scheme concerning evidence requirements and audit would take place from 1 August 2022.

These changes will not now take effect on 1 August 2022. They are intended to take effect in 2023 instead. We will provide adequate notice before the changes take effect. This will enable us to develop a package of guidance and support tools to help you meet these new requirements.

If you have any questions about the changes, you can contact the Nursery Milk Scheme at info@nurserymilk.co.uk
